

Farm Chick Quilts 2016 Online Row of the Month

Thank you for sewing along with us on this row of the month! We hope you have enjoyed it as much as we have. The following layout diagram shows the order we put our rows together, but feel free to put yours together as you see fit. We chose to use 1-1/2" cut strips of white to sash in between rows and at the top and bottom of the quilt. These strips will finish 1" and will make the finished size of the quilt 49" x 67-3/4". We will be starting a medallion quilt in July of 2017 done in traditional colors. Have a great January!
